DR SOFTWARE SERVICES & ASSOCIATES, INC

PROFESSIONAL SERVICES FOR DELMIAWORKS (IQMS) WAREHOUSE MANAGEMENT SYSTEM (BASIC)

DR Software Services excels in delivering expert support for the implementation of your DELMIAWorks' Warehouse Management System (WMS). Our experienced team excels at evaluating your unique requirements, applying industry-leading practices, and promoting improvements throughout your operations, encompassing enhancements in reporting, labeling, and more. We empower your team to perform essential tasks such as basic movements, inventory management, searches, and shipping operations. During the implementation process, we offer comprehensive guidance and training.

Benefits of DELMIAWorks' Warehouse Management Software System:

DELMIAWorks' Warehouse Management System (WMS) enables manufacturers to simplify inventory management and increase inventory accuracy.

- Increase Inventory Accuracy.
- Reduce Labor cost but streamline order fulfillment from production to shipping.
- Lower data collection costs by eliminating the need for manual data entry, boosting operational efficiency.
- Enable real-time access to inventory and production data using handheld units, facilitating prompt decision-making.
- Assure correct material consumption and lot traceability.

CAPABILITIES OF DELMIAWORKS' WAREHOUSE MANAGEMENT SYSTEM (BASIC):

- **Inventory Management –** Realtime inventory transactions, including:
  - **Location Tracking**
  - **Movements**
  - **Adjustments**
  - **Physical/Cycle Counting**
- **Receiving Operations –** Receive-in inventory and print labels from the scan guns.
- **Shipping –** Streamline shipping process for data accuracy.
- **Production Reporting –** Scan inventory to work orders to assure correct material is being used. Seamlessly scan manufactured items into inventory as they are produced, with an option to backflush raw materials upon their consumption. If you own Real-Time Production Monitoring, you can also Reporting Rejects.
- **Fixed Asset Inventory Management –** Verify and manage fixed asset inventory efficiently (if you own Fixed Assets).
